Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

1) Responsive to communication(s) filed on 29 May 2007.
 2a) This action is FINAL. 2b) This action is non-final.
 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

4) Claim(s) 146-233 is/are pending in the application.
 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
 5) Claim(s) _____ is/are allowed.
 6) Claim(s) 146-233 is/are rejected.
 7) Claim(s) _____ is/are objected to.
 8) Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

9) The specification is objected to by the Examiner.
 10) The drawing(s) filed on _____ is/are: a) accepted or b) objected to by the Examiner.
 Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
 Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
 11) The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

12) Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
 a) All b) Some * c) None of:
 1. Certified copies of the priority documents have been received.
 2. Certified copies of the priority documents have been received in Application No. _____.
 3. Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Receipt of response and amendment dated 5-29-07 is acknowledged.

Claims 146-233 are pending in the instant application.

Claim Rejections - 35 USC § 112

Claims 146-233 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Independent claims have been amended to recite the limitation "said formulation is encapsulated in an exterior capsule such that the first fraction and the second fraction are segregated", which is a new matter. Applicants state in the remarks section (5-29-07) that the support for the amendment comes from disclosure paragraphs [0227], [0228], [0012] and [0016]. A review of the above as well as the entire specification reveals that the new limitations are not supported by the instant disclosure. The disclosures at [0012] do not mention the "segregation and encapsulation" features. At [0014], the segregation of the two fractions require that the fractions not be in contact with each other i.e., physically segregated by a coating on the second fraction i.e., solid particles. Whereas instant claims recite the "formulation (comprising first and second fractions) is encapsulated in an exterior capsule such that the first and second fractions are segregated", which does not require any physical segregation of the two fractions and which also reflects that the entire formulation is encapsulated i.e., a coating just

around the first and second fractions. Paragraph [0016] does not provide any description regarding the segregation. Paragraph [0227], similar to [0014] states that segregation is done by a means such as plug or septum, such as in figures 3A and 3B; a wall (figures 4A and 4B), such that the interior capsule is wedged in to an exterior capsule. On the other hand, paragraph [0225] states that the two separate fractions may be in direct contact with each other. Thus, instant disclosure only supports for the two fractions being physically segregated by means of septum, capsulation, plug etc., or in direct contact with each other but does not provide a support for encapsulation of the "formulation (both fraction)" in an exterior capsule such that the first and second fractions are segregated. The specification does not provide support for segregation of the fractions by an exterior capsule.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
